

# HÅG CAPISCO 8106 Saddle Seat

HÅG Capisco is inspired by the horseman's saddle and sitting posture. No one sits as actively as a rider in the saddle. When you work sitting on a HÅG Capisco, you'll be inspired to greater freedom of movement, variation, and new natural sitting positions. HÅG Capisco inspires you to try variation and new seating positions. HÅG Capisco allows you to sit as high or low as you want. No other office ergonomic work chair is so well adapted to workstations with different heights. Sit down and adjust it from a normal table height to a semi-standing position.

Its award-winning design fits into creative meeting rooms and any other place where you want to work and move in a different way. It's also a great chair for dentists and surgeons who work in semi standing positions or when used back-to-front so that the back panel supports the chest.

Capisco means '*I understand*' in Italian, and few office chairs meet the body's natural need for movement and variation as well as HÅG Capisco saddle chair. 10-year warranty.
