

SWOPPER CLASSIC

Active Office Chair

The all-rounder of the **swopper** family and consists of a cast-iron foot ring, a spring strut with adjustable steel spring and a convex-shaped, padded seat. Height, spring hardness and sideways movement are individually adjustable.

How the swopper Revolutionised Sitting!

Designed and developed in Germany by husband-and-wife team Joseph (an engineer) and Dorle (a world-famous physio) Gloeckl, the **swopper** was designed to help people relieve their back and spinal problems and overcome the challenges our bodies face with static sitting.

It is the only seat in the world that can adapt to all three dimensions of human movement. This means that the **swopper** moves forward, backward, sideways, all the way around, as well as up and down! You can also adjust the tension and movement of the spring, and change the lateral movement, so it can become more or less stable.

This movement, sometimes called "active sitting" or "sitting in motion" has been shown to be the basis for many beneficial health effects. A person no longer needs to lean forward towards the table and flex their spine to work, as the **swopper's** flexible centre spring will bend forward, so there is no one-sided pressure on your intervertebral discs. Endorsed by ergonomists and architects alike, it's certainly one of a kind!

Style & Convenience

The **swopper** is simply in a class of its own. The sleek, contemporary design and compact structure makes the **swopper** a perfect fit in any commercial or home environment. The **swopper** has revolutionized sitting and has quickly become a huge success around the world.

Benefits

- Helps relieve back pain
- Promotes active-dynamic sitting
- Good training for the muscles
- Keeps ligaments and joints in motion
- Stimulates blood circulation
- Encourages concentration & performance

Features

- Unique design & functionality
- Height adjustable
- Dynamic spring adjustability
- Tension adjustment
- Load Capacity MEDIUM Spring: 60 – 120kg / SMALL Spring: 40 – 70kg
- Made in Germany
- Sideways movement adjustment
- Cast-iron foot ring & convex shaped padded seat
- Available in various high quality cover materials + colours
- **Microfibre fabric:** Soft to the touch, breathable, antistatic & easy to clean

Warranty

3 Year Limited Warranty

Three years on seat structures (spring, seat frame, height adjustment seat frame)

One year on seat cushion and seat fabric
