

PERSONAL 160

Personal is suitable for those clients seeking an accommodating chair which is generous in both seat and back size. The ultimate in heavy duty task chairs for comfort as well as durability.

Fully Australian made, the Personal can be upholstered in your choice of fabric, with an impressive stitch detail, for both the seat and back for a more upmarket look.

The Personal utilises Australian moulded foam with visco* foam overlay on the seat as well as the back to provide years of supportive comfort.

Also known as memory foam, visco* was developed in 1966 by NASA to improve the safety of aircraft cushions. visco* foam reacts to body heat allowing it to mould to a warm body in a few minutes and then returning to its original shape once weight is removed. Memory foam increases blood flow to regions of the body alleviating pressure sores.
